Ad Text Hillary Clinton made new promises to extend our traitor President Obama's pro-immigration policy. She also promised to offer illegals residency and "a path of citizenship". During the debate on 8th March she was asked about deportation.

Clinton said: "I would not deport children. I do not want to deport family members either. I want to, as I said, prioritize who would be deported: violent criminals, people planning terrorist attacks, anybody who threatens us. That's a relatively small universe." Oh wonderful, so she admits she wants to be the second Obama, like the first one isn't enough. And we know what's behind this world "children" – young men who claim to be less than 18. Same way the "illegals without a criminal record" is also those who are not proved to be criminals yet.

Crossing the U.S. border without permission is already a crime. A crime that should bring just one simple punishment – deportation and a prohibition of further entrance. We do not need a president who doesn't understand that. We do not need a president who forgives this kind of crime. We do not need Hillary.
